

The Management of Falcon Engineering 95 Pty. Ltd. believes all workplace injuries and illnesses are preventable, and are committed to protecting the health and safety of our workers, and visitors to our workplaces. We are also committed to providing intrinsically safe and ethical products for our customers.

To protect the health and safety of these people, we commit to:

- Providing safe plant and systems of work;
- Eliminating hazards and reducing OHS risks
- Fulfilling legal requirements and other requirements
- Providing a framework for setting the OHS objectives, written procedures and safe work method statements;
- Providing information, instruction, training, and supervision; and
- Providing quality raw materials and safe designs;
- Consultation and participation of workers, and, where they exist, workers' representatives.
- establishing objectives in conjunction with this policy to ensure continual improvement of the management system

We will ensure continuous compliance with legislative requirements, relevant Australian Standards and other applicable compliance obligations through regular monitoring and audits.

All people working in our workplace are required to comply with our safety management system.
